

# Surface / Decor Options

This is a fact that architecture and interior design set the context of a space but choosing the right furniture sets its essence. Whether it is minimal, industrial, luxurious, or modern, the choice of furniture not only gives character and atmosphere to a space but it also expresses the evolving trends in the office space interior and design field.

## Standard Collection

---

The essential collection contains the most popular finishes by Egger and used as standard available colors for most furniture offered by Office Plus.

## Acoustic Screen Panels

---

Office Plus offers acoustic screen panels that reduce noise and increase privacy in workstations. They help create a quieter workspace while adding a modern look.
